

OHWASH (One Health water sanitation and hygiene): integrated surveillance of human and animal faeces management and its determinants in HDSS sites of 3 regions of Ethiopia

Sandpit Fellows: Birhanu Hadush Abera, Chaltu Fikru, Girma Kebede Gurmu

Mentors: Lisa Cavalerie, Nicola Williams, Siobhan Mor

Objectives:

1. Identify how human and animal faeces are managed in the three HDSS sites
2. Identify socio-economic, knowledge, attitude and practice related determinants of human and animal faeces management
3. Determine faecal load of bacteria on hand of females/mothers, living area and manure pile
4. Isolation of non-typhoidal salmonella spp from the different samples
