

Status of brucellosis at animal and human interface in Maekel and Debub regions in Eritrea

Sandpit Fellows: Efrem Ghebremeskel Habteyohannes, Elias Teages, Tedros Fikru Teshome

Mentors: Siobhan Mor, Gina Pinchbeck

Objectives:

1. To investigate the current status of brucellosis prevalence in animals and humans
2. To identify the risk factors associated with the animal and human interface
3. To analyse the economic impact and significance of the disease in the selected regions
