

One hundred years of zoonoses research in the Horn of Africa: a scoping review

Team: Lisa Cavalerie, Matthew Baylis, Maya Wardeh, Ophelie Lebrasseur, Mark Nanyingi, K. Marie McIntyre, Mirgissa Kaba, Robert Christley, Gina Pinchbeck, Siobhan Mor

Research questions

1. What is the disease and country focus of zoonoses research in the Horn of Africa?
2. To what extent has research addressed country priorities for zoonoses?
3. What data are reported (human, animal or environment)?
4. What discipline/methods have been adopted?
5. Sandpit Fellows is doing the research – local/foreign researchers – and to what extent is collaboration occurring (south-south and north-south)?
