

# Associations between milk quality, animal husbandry and childhood morbidity in pastoral systems, Kenya

Sandpit Fellows: Grace Watene, Linnet Mwangi, Maryanne Betsy Usagi, Jeff Wamiti

Mentors: Eric Fevre

## Objectives:

1. To determine antimicrobial resistance associated with microbial and residue contamination in milk, and the implication on child health in pastoral systems
2. To implement milk surveillance activities in the HORN-sponsored laboratory in Oloitoktok, Kenya
